POMBSTONE, ARIZONA. APRIL 17, 1882.

This Page is from the Daily of Monday, April 13.

SILVER ORE—A fine specimen of Tombstone on receipt of \$5 for one year's subscription to the Tombstone Epitaph. Address Epitaph Printing and Publishing Co., Tombstone, Arizona.

EX-SECRETARY John J. Gosper has bought the interest of his de- minutes, and the captain and three ceased partner in the Phenix Herald, others were lost. and is now sole owner. The new proprietor says: "Old subscribers and advertisers who are now six months or more in arrears, a discount of 20 afternoon. The stones were two per cent will be given on cash settlements made any time before the 1st of July next." while this indicates a large credit business in the past, it is a most ilberal offer on the part of Mr. Gosper. Mr. Charles Coolidge will have charge of the office as publisher, and will control the local department.

THE grand jury of Maricopa county has completed its labors and adjourned. The final report shows the cash on hand in the county treasury to be \$4,862.80, of which \$653.30 is in bank, \$3,667.50 gold in the safe, \$177 legal tenders, ditto, and \$355 silver in the safe. The jury hauls savs in conclusion:

We do earnestly request M. Wormser, as member of the board of supervisors, to resign his position as super-

The specific charges against Wormser are that he gave in his real estate, consisting of 2,160 acres of land, to the assessor at \$1,500, and that it was only raised by the board to \$2,425; that he sold the county nineteen gross of steel pens at one dollar per gross, and seven dozen penholders at fifty cents per dozen, and that the pens are a very inferior quality. They further say that "We are of the opinion that Supervisor Wormser has freely availed himself of and reaped all the benefits of his official position to protect his own pocket." Otherwise than the complaint against the supervisors, and Wormser in particular, everything is in the usual red tape style. There were five indictments found, none of which were for capital offenses.

THERE is no abatement of the flood of immigration that is pouring in on us. For the month of February there arrived in the United States bill. 28,247 emigrants, while for the same month last year the number was only 15,075. Of this total number of emigrants there arrived from Germany, 8,626; France, 275; Denmark, 289; Belgium, 27; Austria, 698; Scotland, 501; Ireland, 1464; England and Wales, 3,073; Hungary, 1534; Italy, 1777; Netherlands, 235; Norway, 193; Poland, 533; Russia, 1052; Sweden, 431; Switzerland, 431; Dominion of Canada, 3,771; China, 3,389, and from all other countries, 164. It will be seen by these figures that Germany furnishes more than double the immigration of any other country. The Dominion of Canada standing second on the list, Month of the Lion, namely: inaugu-China third with England and Wales ral bawl time, the scribes and the of Sonora and Chihuahua, Mexico. The fourth. Hungary sends us more people than Ireland by 70, and yet, as Hungarians, they cut no figure whatever. At the present rate of influx from Germany it will not take long for America to become largely Teutonic. In fact, the larger cities of the middle and western states are so already. This is so much the case that in all political affairs it has become customary to put a German on the ticket to catch the German vote. It was not long ago that in Chicago at a political convention, after they had nominated men to catch the Ger man, Irish, English and other foreign votes, an American got up and moved that an American be put upon the ticket to eatch the American vote. At the rate foreign immigration is coming to America it will not be long that we, as a nation, can

claim to be American. MRS. Z. H. TAYLOR is the fortunate possessor of an elegant conservatory which has just been completed at the rear of the San Jose House. The flower beds, which are well stocked with choice plants, are tastefully arranged around the sides of the edifice, while the center is occupied by a low fountain-which, if the lady's botanical efforts are crowned with success, will in the near future "gush forth i' the midst of roses." This is one of the first experiments of the kind ever tried in Tombstone and Mrs. Taylor deserves much credit for her enterprise and skill in projecting it.

THE funeral of the late George T. Russell took place yesterday afternoon at 5 his own people down by the sea, and o'clock from the undertakers. Rev. J. P. gave him flesh meat whereof to eat. McIntyre conducted the burial services. A number of friends accompanied the remains in carriages to the grave.

allion shipment for the Tombstone o., by Wells, Fargo & Co.'s exday, was seven bars weighing and valued at \$17,220.

(Special Dispatches to the EPITAPE)

Chandler Will Be Confirmed. Washington, April 13.-The na-

val committee has made a favorable report on the nomination of Chandler. It was by a strict party vote.

Collision and Loss of Life.

CHICAGO, April 13 .- A Detroit special says that at 3 o'clock this morning the schooner Thomas Parsons collided with the schooner Clayton Belle on the lake, ten miles north of port. The Belle sunk in a few

Fearful Hail Storm Dallas, Texas, April 13.-A terrific hail storm visited this place this inches in circumferance. Teams ran away in the street and many persons were dangerously hurt. The aggregate damage is many thousands. Reports from neighboring towns show a like destruction. It is feared there has been serious loss of life and property.

Concerning New Chinese Bill San Francisco, April 13 .-- The full text of the new Chinese bill to be introduced by Page, has been received, but the changes from the vetoed bill have already been indicated in the dispatches.

Washington, April 12 .- All the principal nominations made by the president have been confirmed today. The senate has passed the bill for the remeval of the southern Utes over the coals one of the members from Colorady into Utah. Some of of the board of supervisors, and the strongest advocates of legislation to suspend Chinese immigration now admit that the prospects of such legislation at this session are not encouraging. The democrats charge that the republicans are maneuverng to get up a bill that will relieve them of censure on the Pacific coast, and that they are looking more for political effect than the benefit of the people, while the republicans charge the democrats with scheming to make capital and are secretly trying to prevent the passage of a bill. A senator said to-day that he would not be surprised if the question took partisan shape in the house.

The Chinese bill reported by Page limits the term of suspension of immigration to ten years, and provides that the act go into effect sixty days after the passage of the bill. The republican members of the committee voted solidly for the ten years' clause. Willis, of the minority committee, desires the suspension to be fifteen years, and will file a minority report. Page will, on Monday next, move the suspension of the rule to put the bill on its passage.

Waite, from the committee on elections, reported a resolution in the contested election case-Cooley vs. Barbour, Virginia--declaring Barbour to a seat. It was laid over.

The house went into committee of the whole on the tariff commission

the land league began its session this morning. Many Catholics were pre-

asking congress to pay him for his works are to be commenced within thirty services in the case of Guiteau.

A Question Answered.

From the Bodie Free Press, 9th. What circumstance determines the

beginning of Lent?-C. L. H. Sorry, right sorry, are we to see C. L. H. so ignorant of his Bible. Were he familiar with the truths between those sacred lids he would not have to ask "What circumstances determine the beginning of Lent?"

We quote from the blessed word: that about the beginning of the pharisees, and the high priest and following letter, received by Judge M. priestesses, and many people of the Gray, this morning, forwarded by the Hon. shoddy tribes, did gather themselves G. H. Ouray, our delegate in congress, together in the grand kraal of the will explain the present situation of matgreat city, and did largely make ters in that respect: merry with the festive heelandtoe.

"And it came to pass that many did lack of the dross wherewith to make of themselves great festivity. "And Mollie lent unto Julia from her jewel casket;

"And Sarah lent unto Hattie of

her things; "And Nellie lent unto Jane of her

small clothes. "And so they lent on, and lent on, until the high priestesses were all rigged out in gorgeous array.

"And Joe lent unto Jake of his "And Ike lent unto Bill from his

many drawers; "And Ben lent unto Tom of his

many togs. "And so they lent on, and lent on, until the high priests were all rigged

"And it came to pass that there came to the great city a man possessed of many coins in gold and silver, and he did want to be a great governor among the people, and his name

unto him, each of them did say: Behold! Verdant, lend unto me of thy coins, and thou shalt be made "And Verdant lent liberally of his coins, even unto the last slick quar- Bernardino, California, and one at Tucson,

was Verdant; and the Phansees said

ter; and behold! he was-not made governor. "And it came to pass that Verdant, the stranger, had not flesh meat whereof to eat for forty days, even until a friend came unto him from

"And verily this was good for Verdant's belly; and ever after it was known as the 'Lent on' season."-II. Josephus, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13 and 14 verses.

Mr. Chas. Nash, of Prescott, arrived in town yesterday and is stopping at the

Proceedings of the City Council. The common council met last evening at

o'clock; Mayor Carr in the chair. A special message was presented by the mayor, which was read and filed. The message is as follows:

GENTLEMEN OF THE COMMON COUNCIL In my message delivered to your honora-ble body January 16th, 1882, I said that it seemed clear to me that the law never intended to give to Mayor Randall, or any other official, the right or power to sell or give to a company of speculators the homes of our people." Gentlemen, in conseof the vast amount of business which has crowded upon you for consideration since you have been in office, which had to be attended to, I refrained from calling your attention to this matter, which is of vital importance to our city and the citizens thereof, until the present time. Gentlemen of the council, I would recommend to your honorable body the necessity of taking some immediate action in the matter, and see, if possible, what the city's rights are in the case, and if possible, quiet the titles to the property within the to the prosperity of this city. The unset-tled state of the titles, no man knows whom to buy from, or when he is safe in buying or making improvements. There are generally three or four claimants for every lot within the city limits, namely the mines, the Townsite company and the city. In my judgment, if the proper steps had been taken by the city at an early day, when the patent was granted to Mayor Randall, all this trouble about titles would have been ended then and there. To me it seems that the law is very plain in the matter, a..d that it has in no case been sustained or complied with. Whether it is now too late or not to rectify the mistakes of former mayors and councils I cannot say, and would recommend a close investi-gation into all details concerning the matter. It is, gentlemen, my opinion that if the requirements of the law had been fully carried out, every foot of ground within the city limits would now belong to the city, for the benefit of the city and the inhabitants thereof. Until this much vexed question is settled, we need not look for much permanent improvement.

Gentlemen of the Council, I would recommend to your honorable body that appriation from the city treasury be made to try what the city's rights are in the matter, by the citizens, to test the case before proper courts and forever settle the quesion, as far as the city is interested my judgment it will require from four to five thousand dollars to properly test the case. There is no doubt in my mind that if the city commences a suit for the recovery of the property, and setting aside Mayor Randall's deed, it will go to the Supreme court of the United States. But, gentlemen of the council, whatever your opinions may be. I would recommend to you calm and cool deliberation of this subject, doing nothing hastily, but give to both sides of the question your serious consideration, and if, in your judgment, the city has been deprived of any of her property or rights under the law, you will have my hearty co-operation to restore those rights, against all and every person whomsoever. John Carr, Mayor.

On motion, it was ordered that a special meeting be held on Friday evening for the consideration of the message, and J. S. Clark was invited to be present at that time to submit to the council his patent to

the townsite for inspection. Bills as below were ordered paid W. A. Harwood. \$13 50 Walter Keefe. 15 00 Thomas Donahue. 4 00 Alfonse de Ayala

Mr. Suman, the deputy poundmaster, presented an application asking power to make arrests in the performance of his duties, which was, on motion, granted.

Ordinauces were passed granting a The second annual convention of tranchise to J. O. Dunbar, H. Solomon and sociates, and also to A. H. Emanuel and associates, for furnishing the city with gas. The stipulations of the above ordi-Scoville has filed a petition nances are that the construction of the days; to be completed before the end of seven months, and the rates charged for turnishing consumers with gas to be \$7 per thousand cubic feet.

On motion the council then adjourned.

Protection for the Frontier.

It will be remembered that some two or three months ago a very large petition was sent from Tombstone asking the secretary of war to have a tort established at Cloverdale Spring, in the Animas valley, New Mexico, for the protection of that "And it came to pass in those days portion of the frontier upon either side of where the territories of New Mexico and Arizona corner with the states

WAR DEPARTMENT, WASHINGTON, March 24, 1882. SIR-I have the honor to acknowledge the receipt of your letter, of the 16th in stant, enclosing and commending a pe tition of citizens of New Mexico and Ari zona, for the establishment of a military post in the Animas valley, N. M., at Cloverdale Springs, and beg to inform you, n reply, that the department has unde advisement the question of the protection f the settlers in the vicinity named, I have given instructions to Gen. McDowell to bring the petition to the notice of the general of the army, when next month, he visits the locality where the proposed posts are to be built. Very respectfully, your obedient servant.

ROBERT T. LINCOLN, Secretary of War.

HON. G. H. OURY, House of Representatives.

Gas! Gas! Two franchises for gas were passed by the city council last night. One to A. H. Emanuel and associates. Mr. Emanuel has succeeded in making a combination of parties, including himself, who mean business, and their works will be driven to completion as fast as means and labor can drive it. In this enterprise he has become connected with the National Petroleum & Water Gas company, of New York, represented here by Mr. M. G. Elmore, who during the past year built three gas works -one at San Diego, California; one at San Arizona. The company has over eighty sets of works in the United States, seven of which are upon the Pacific slope, among which is the Central Gas company, of San Francisco, built in opposition to the Coal Gas company, and which has been successfully running for the past three months. The nearest works to us are in Tucson, and the people of that city speak in the highest terms of the quality of the gas and

of the superintendent of construction, Mr.

Elmore, for his energy in lighting the

lown in so short a space of time. By Sep-

LOCAL SPLINTERS.

IMPROVEMENTS are continually going on, and new houses and other buildings are being constantly erected. It does not seem as if Tombstone was retrograding.

MR. SUMAN, deputy poundmaster, has the pound all ready and will commence business at once. Parties having dogs and stock at large will "be on the look

SANDY BOB's coach was stopped when going down Allen street this morning to allow a lady passenger to be taken on board, and every chap on that street rushed out to see the wonderful scene.

THERE seems to be a demand for cheap saddle horses. Parties desirous of going out on prospecting tours do not want to invest much money on high-priced horses. Those worth about \$50 are very saleable.

A MEETING of the police commissioners was held last night after the session of the council, when certain charges were preferred against Chlef of Police Neagle for searching a man in the streets without a warrant. The matter was referred to a committee who are to investigate.

THE ladies of the Presbyterian church who are drilling a large class of children for the concert to be given next month, meet almost every afternoon to instruct their pupils. The task is an irksome one, but already good progress has been made, and it is safe to bespeak for the ladies abundant success.

A NUMBER of loads of rubbish and offensive matter generally, have been carted to the vacant lot on the upper side of the Presbyterian church. Now this is no place to leave garbage, right in the midst of town and adjoining a church where people congregate so frequently. It should be removed at once.

General Sherman's Opinion.

The general said to our interviewer that he was delighted with the progress of Arizona, and prophesied great things for her in the future. The introduction of railroads, he thought, would open the eyes of capital to the vast deposits of mineral wealth within the borders of the territory. He was particularly delighted with Tombstone. He told with considerable merriment his introduction to Tombstone. He said when the carriage he was in was within a few hundred yards of the town a cowboyish looking individual rode up and asked if General Sherman was there. Being answered in the affirmative he pulled a pistol and fired two shots in rapid succession. That was the signal for a volley, and for a few minutes the air vibrated with the sharp report of pistol shots, bursting of auvils and Chinese rockets. He said that Tombstone was a decidedly live town, and that he enjoyed himself hugely while there. The ladies of the party were also much pleased with the lively mining people were here in the West.

THE growth of the iron and steel industry of the United States, says the Economist, has been very remarkable. In 1810 we produced only 50,000 tons of iron, and our largest furnace could not vield 1,100 tons annually. But in 1830 the product was 165,000 tons; in 1880 the iron and steel works of the United States produced 7,265,100 tons. The aggregate annual product of onr manufacturing and mechanical industries is now \$6,000,000,000. Of this vast product less than \$200,000,000 are exported, leaving the value of \$5,-800,000,000 for home consumption. And of the \$900,000,000 produced by agriculture less than ten per cent is exported. One of the self-supporting powers of the American people, and of the mutual relations existing between our industries, we can dwell as Americans with the most profound satisfaction. The receipts at the seaboard cities for exportation and consumption, including all kinds of grain, ground and unground, aggregated 352.921,452 bushels in 1879, and 369,559,607 in 1880. The whole eastern movement of western grain, including shipments to interior points on the Atlantic slope, must somewhat exceed 400,000,000 bushels—not more than one-sixth of the total production of an abundant year.

WHEN the Arizona diamond excitement was at its height, certain parties in Denver formed the "Arizona Diamond Company," capital \$1,000,000, and issued shares at five dollars each. Hundreds, if not thousands of these shares were taken without any questions being asked, but when the wind began to blow cold a certain eastern man, says the Wall Street News, who had invested about \$5,000, and was hanging around for dividends, dropped into the 7x9 office of the company and inquired: "What are the shares worth to-

"About 90, I believe." "Has a dividend been declared

"Not yet; we are just getting in shall have returns."

"Machinery? What do you want of machinery? I thought the diamonds were picked up by hand?" "So they are. That is the old way of doing business, but this company can't fool around picking up diamonns by the handful. We have sent for machinery which loads a wagon in two minutes by the watch and if the cussed mules don't balk we'll have the first 24 wagon loads here early in June. Fine weathergood day, sir. Next."

tember or October we can count upon gas from this company. What the other company propose to do, we are not in a posi-tion to say. J. W. King arrived from Tucson and has taken rooms at the Cosmopolitan.

A NEW ENTERPRISE. Scheme for Taking Money-Hear,

Beecher & Co. Agents. om the Reno Gazette. EDITOR GAZETTE:-Since Writing

you last I have been very busy, organizing and perfecting the details for our company, organized for the improvement of the Caucasian race We now have a paid up capital of \$220,000, divided into shares of \$10 each, deposited with the Unlimited Chinese Bank of San Francisco. We are in hopes to make the enterprise not only self-sustaining, but to soon be able to pay a dividend of 15 per cent per annum. We have already secured two blocks in the Central Park of New York City, and one block in Boston suitable for our purposes. Our plan of operation is to secure the services of 500 Chinese females who are now in Hong Keng awaiting shipment, and 100 good, energetic opium smokers, with a fine assortment of pipes, who will endeavor to encourage the use of opium in the cities above mentioned. They will be distributed about equally between New York and Boston. We expect to be able to give our first en-tertainment about July 1. President Arthur, Henry Ward Beecher, Senator Hoar and others have given us good reason to expect their presence opening night, and everything promises success. We should be pleased to have a representative from your paper present, July 4, 9 p. m., sharp. There will be no postponement, as in case of delay to the steamer we can easily engage enough white boys who are well versed in opium smok ing. Hoping to see you on my way through, I remain, yours, very truly, REV. TIMOTHY GOODYEAR.

ITEMS AT LARGE.

From the Phenix Herald, April 10. The grand jury gave in their report Saturday afternoon. They gave the board of supervisors a general

overhauling.
Judge DeForest Porter, Captain W. A. Hancock and Hon. A. C. Baker are organized as a committee of arrangements for the reception of Gen. Sherman and party.

She sentence of Alfredo Brown has been commuted to imprisonment for life. He was taken away last night and, ere this, is settled down in the house overlooking the raging Colorado.

Agua Caliente, Yuma county, is becoming popular as a watering place as the celebrated Paso Robles springs in California.

Graham county is looming up as a mining county. Large sales have recently taken place there. Little "Steve" comes in for a big slice, and

Pete Bolan likewise. While in course of the trial, and even after sentence was passed in the case of Alfredo Brown, we purcamp. Miss Poe naively remarked posely omitted any comments on the that she was expecting that at least case. Now that the sentence has there would be two or three been commuted, we feel that we men killed every day, and to her meet the approval of all our better great disappointment, she added, in | thinking citizens when we say that the suggestive language of the west, Governor Tritle has met the demands They hadn't a man for breakfast of nine-tenths of the citizens of the while they were in Tombstone." county in his action in the case. The ladies thought that the most While we are slow in approving the chivalrous portion of the American commutation of a sentence in a case of murder, we think this is o which, on account of youth and circumstantial evidence, deserved executive elemency.

Calumet and Heela.

From the Iron Agitator. As far back as the date of starting the Quincy, the road connecting Eagle River with Portage vein passed over Calumet and Hecla vein. The wheels of the wagons passing over the boulders had exposed heavy copper in conglomerate form, and only a few taps of the hammer was necessary to exhibit copper. Notwithstanding this showing, the wise old fathers silently shook their heads and prospected not on its value. They ranted masses, and argued loud and long that copper never could be profitable except in that form, and it is only fair to presume that those of them who lived to see the final outcome of their primitive speculations, fully realize what they lose by "not trying." The first man to go actively at the work of opening up to the world the famous deposit was Edwin J. Hulburn, who sunk the shafts and showed the wary speculators of "Bosting" a thing or two in the conglomerate way. The first pit in the Hecla was sunk in September, 1867, since which time, sixteen years, the mine has grown to its present massive proportions.

The property now embraces eleven skip shafts-four in the Decla, five in the Calumet, and two in the extension near Osceola boundary. The vein has been found almost equally productive at all points opened, except at the most northerly shaft, designated as number 5 Calumet. where copper has been found in but limited quantities. The deepest shafts have attained a depth of about two thousand eight hundred feet, and the vein is now and has been from surface down uniform both in mineral and width.

Such is the brief outline of the history of the most gigantic mining property in the world. Estimated at a par value of \$2,500,000, it stands rated to-day on the exchange boards of Eastern cities at the magnificent sum of \$24,000,000. It has paid out good shape to realize, however. As to its lucky owners over \$21,000,000 soon as we get our machinery we in dividends, and that it will continue to increase the amount for vears to come by its regular quarterly donation of half a million is just as much an assured fact as the following of day is the night.
